

THE WHITEFISH

FOUR BEDROOMS • THREE BATHS 2,183 SQUARE FEET

The 2,183 square foot Whitefish is Norton Ranch Home's largest offering in Phase 5 and is popular with those needing more space of a four-bedroom home. The first-floor foyer is generously sized and leads past one bedroom which could also serve as a home office. The open concept living room and dining rooms are centered around the kitchen with its view of the patio. Upstairs, the primary bedroom has its own private bathroom with dual sink vanity and fiberglass stand up shower unit. The two guest bedrooms on the second floor have a dedicated bathroom with a shower/tub. For convenience, the laundry is located on the second floor.
