

THE FLATHEAD

FOUR BEDROOMS • THREE BATHS 1,842 SQUARE FEET

The 1,842 square foot Flathead is an impressive home that offers both space and comfort in an efficient two-story plan. The foyer opens to a 4th bedroom or optional office. From here the hall leads to an open entertaining area- the kitchen with ample counter space and island, the dining room with a door to the patio and an expansive living room. A full bath with shower/tub and large storage space under the staircase complete this first floor. Upstairs is home to the luxurious primary bedroom suite, with features a sizable walk-in closet, dual sink vanity and fiberglass walk-in shower. Two additional bedrooms and a full bath on the second floor are separated nicely from the primary bedroom by a well sized bonus area. For convenience, the laundry room is located on this floor.
