THE EVERGREEN ENCORE

SINGLE STORY WITH THREE BEDROOMS AND TWO BATHS
1548 SQUARE FEET

The Evergreen Encore's single level design and spacious appeal makes it one of Norton Ranch's most popular floor plans. The kitchen is a chef's dream with ample counter space, plenty of cabinet storage and a breakfast bar on the island. The expansive living room, with vaulted ceilings and optional gas fireplace, adjoins the dining area completing the eating and entertainment space. The spacious and private master suite boasts a large closet and a dual vanity bathroom. The other two sizable bedrooms share the second bathroom and round out this well-planned home.
